## Resident Satisfaction Survey

It's that time of year again, where we collect residents' input on all areas of the home to find out how we can make your home an even better place to live!

Maria Dickey will be sending out the Resident Satisfaction Survey's via email to all families, however some residents do not have families to assist. Therefore, we are seeking volunteers to assist in completing the satisfaction surveys with (Nursing Home residents). If you would like to help the residents complete their surveys, please contact April Lawson Recreation Manager for more information.
