

1950's Week Was A Bash!

Our incredible Recreation team held a 1950's week for both retirement and nursing home residents. The week consisted of 1950's themed programs, food, music, costumes, and so much more. The 1950's theme brought back a lot of nostalgic feelings from that era as they participated in a variety of 1950 style programs. Residents were quizzed on their 1950's knowledge, they played pin the tail on the poodle, watched the classic film Grease, drank beer floats, and had a 1950's diner style lunch. Not only that, but residents and staff members dressed up in their best 1950's outfits and were able to take a photo in our 1950's red car photobooth! Below are some photos from our photobooth. Overall, our 1950's week was a great success and we are extremely happy to be able to provide this weeklong event for our residents!

Taking Retirement Home Residents Outside Of Our Home Is Now Permitted

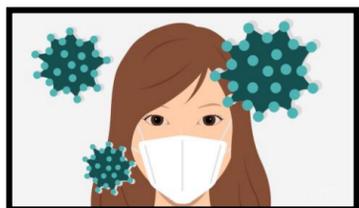

You can now take your loved one outside of our home for a short outing. In order to do this, please call Bay Haven Care Community and ask for the charge nurse on the Retirement Home side. All proper screening and PPE protocols must be used during the outing. We highly recommend that you **DO NOT** take your family member to highly populated areas such as shopping malls, crowded restaurants, or large gatherings. Thank you for your understanding.

Only Two Residents Per Room

According to the Ontario Ministry of Health and Long-Term Care, all Nursing Homes in Ontario are now mandated to only allow two residents per bedroom, instead of the previous four residents. This new rule is to prevent the spread of COVID-19 and to allow residents to maintain social distancing while in their own rooms. Bay Haven Care Community has taken immediate action to fully update our home with the new guidelines placed from the Ontario Ministry of Health and Long-Term Care. We are happy to make sure your loved one continues to stay safe during this pandemic.

Second Wave Expected

The Bay Haven Care Community Care Community would like to remind everyone that a second wave of the COVID-19 is expected to develop this upcoming fall.

We need to continue to be cautious by washing hands, wearing masks, and disinfecting all surfaces. Be careful and stay safe!

Flu season is approaching
Make sure you....

Sunday, September 13th
is Grandparents Day
